

MARINE TELEPHONE SOUND POWERED TELEPHONE

These telephone do not require a source of electric power for calling and communication. Rotating handle will generate electric power to ring the other station. And the accumulated power is used to amplify acoustic sounds to make conversation loud and clear. They are roughly classified into two systems ; Direct Telephone and Selective Telephone. The latter allows maximum 12 telephones.

DIAGRAM

FEATURE

- Easy operation
- Simple installation and easy maintenance
- Communication is available for 10-15 min with one-time charging
- Enable to recharge while system is operating
- Three types of system are available
 - Direct calling
 - Mutual selective calling

DESK TYPE

**SSD-100B**

- Select Type
- ABS / Steel

WATERTIGHT WALL TYPE

**SSW-301A**

- Select Type
- IP44
- ABS / Steel

**SSW-301B**

- Select Type
- IP44
- Headset Conn
- ABS / Steel

**SSW-301B-1**

- Direct Type
- IP44
- Headset Conn
- ABS / Steel

WATERTIGHT WALL TYPE

**SSW-301B-C**

- Select Type
- IP44
- Headset Conn
- Dry Contact Signal
- ABS / Steel

**SSW-301C**

- Select Type
- IP44
- Sub Receiver
- ABS / Steel

**SSW-301D**

- Direct Type
- IP44
- Headset Conn
- ABS / Steel

FLUSH TYPE

**SSB-401A**

- Select Type
- ABS / Steel

**SSB-401B**

- Select Type
- Dimmer AC220V
- ABS / Steel

**SSB-401C**

- Direct Type
- ABS / Steel

**SSB-401D**

- Select Type
- Dimmer DC24V
- ABS / Steel

WATERTIGHT PORTABLE TYPE HEADSET

**SSP-501A**

- Select Type
- IP44
- ABS / Steel

**SAH-050A-10(Cable)**

- Cable : 5m / 10m / 15m / 20m / 25m

ELECTRIC HORN WITH LAMP

**SED-P-WS**

- IP56
- Power Source : DC24V / AC110V / AC220V
- AL / Steel(Horn)
