TEMPERATURE SENSOR
MP39

- Heavy-duty temperature sensor for main engine thrust pad.
  This temperature sensor is based on a PT100 element, which gives a reliable and accurate measurement.

- Measuring Range : -50 ~ 200℃

- Sensing Element : PT100
  (Platinum Thermal Resistance Bulb)

- Enclosure : IP65

SPECIFICATION

- Insertion length (P2, mm)
  - 60, 100, 125, 130, 150 and etc

- Fitting Thread (S)
  - PF 3/8, PF 1/2, PF 3/4 and etc

- Cable length (L, mm)
  - 5,000 / 6,000 / 7,000 and etc.
